

Rejuvenate Your Skin by Avene Triacneal

Skin imperfections have become a common problem faced by the people of all types and sizes in all corners of the world. To get rid of skin imperfections, millions of bucks are wasted every year. Despite heavily spending, people fail to get a healthy and glowing skin. For such people, Avene Triacneal from EAU THERMALE Avene is a blessed product. With it, beauty and body care enthusiasts can regain their lost paradise. EAU THERMALE Avene is a unique French dermo-cosmetic brand that is dedicated to each level of the skin sensitivity. Each skin care product from the brand contains the Avène Thermal Spring Water, a unique ingredient endorsed by dermatologists over the years.

Avene Triacneal is a great beauty enhancement formula that includes many natural and skin-friendly ingredients. Efectiose enables targeted activity against the irritants that cause severe infirmities. Retinaldehyde helps in the prevention of thickening of the skin and blackheads. Glycolic acid scrubs dead skin cells with a peeling activity. When used according to the given instructions, the cream effectively lessens the number of places, marks and blemishes on the skin. Consequently, the skin becomes smooth, shining, healthy, and balanced looking.

The cream has been developed with a clinically proven formula that reduces the appearance of skin imperfections with anti-aging benefits. The cream is a combination of three key ingredients that perfectly reduce the onset of breakouts and soothe redness and irritation caused by acne.

Made from different key Ingredients including Efectoise (0.1%) - Anti-inflammatory, Retinaldehyde (0.1%) - Skin rejuvenation, Glycolic Acid – Exfoliating and smoothness, and Avène Thermal Spring Water (5%) - Anti-inflammatory and soothing, the cream is a source of relief for all skin types.

It is a non-greasy emulsion that helps you get rid of severe imperfections when you use it for at least 2 months. Regular use of the emulsion reduces the number of scars on your body. It also targets the mediators that are responsible for irritation problems. Moreover, it helps you regulate keratinisation disorders to prevent thickening of the skin and formation of blackheads. The emulsion puts a peeling effect upon the surface of the skin. There are many benefits that all skin care enthusiasts can have by using the product.

These include:

- ⌚ Efectoise, a patented innovation, works specifically on the skin to reduce inflammation associated with acne.
- ⌚ Retinaldehyde helps minimize the appearance of breakouts while offering anti-aging benefits.
- ⌚ Minimizes the onset of acne scarring.
- ⌚ Glycolic Acid exfoliates and retexturizes the skin for a smoother complexion.
- ⌚ Hypoallergenic, non-comedogenic.
